# TIPESHWAR

## A Resort Project Proposal Where Nature Whispers You Home

C O M E ,  R E W I L D  Y O U R  S O U L

Tucked beside the Muchi Dam Spillway and Reservoir, embraced by the forests of Tipeshwar, the proposed site isn't just scenic — it's symbolic.

A place where life can slow down, and where nature is more than a backdrop. It becomes the teacher, the healer, and the home.

THE VISION FOR THIS RESORT ISN'T TO BUILD OVER NATURE, BUT TO BUILD WITH IT.

## THE CORE INTENT

To create a space that blends sophistication with simplicity to deliver a meaningful experience. To offer a sanctuary that goes beyond luxury, beyond vacation. A place where time slows down, and the senses awaken — to birdsong, the rustle of the forest, the scent of damp soil, the laughter of village children, and the warmth of fire under open skies.

## TO NURTURE THE IDEA THAT NATURE IS NOT A DESTINATION — IT IS HOME.

# THE LAND

This 50-acre, family-owned parcel lies in a region where most land is reserved for tribal use, unavailable for private development, making it exceptionally rare.

Elevated above the Muchi Dam reservoir and surrounded by hills and lakes, the site enjoys a naturally pleasant microclimate and year-round habitability — ideal for a nature-based resort.

# WHY TIPESHWAR?
# WHY NOW?

Although in close proximity to some of the most popular wildlife tourist destinations of India, Tipeshwar remains largely undiscovered.

This, matched with the demand for slow-travel, makes it a hidden gem still off the radar, still sacred, still rooted.

## THE WORLD IS READY TO TRAVEL DIFFERENTLY.

## THIS PROJECT IS READY TO RECEIVE THEM.

- Cultural authenticity with minimal commercial dilution
- Proximity to wildlife reserves: Tipeshwar, Tadoba, and Painganga
- Shift toward authentic, regenerative tourism
- Government and international focus on eco-tourism zones
- This is a rare window to invest in a first-mover project that values experience over expansion.

## OUR COMMITMENT

THIS IS A DEVELOPMENT GROUNDED IN RESPECT — FOR NATURE, FOR TRIBAL CULTURE, AND FOR FUTURE GENERATIONS.

Therefore, our commitment is to approach the project with design sensitivity that allows for environmental integration, community partnerships, and cultural integration.
